

## Happy customers are our best advertisement

"I met with four different landscapers before commencing upgrade work on my garden and received vastly different quotes from each. Of the four, Paul Dunne impressed me most because he was very reasonably priced, knowledgeable, friendly and happy to suggest ideas that would make our garden work for us as a family. Following completion of the work I can happily say that Paul Dunne Landscaping has transformed how we use our garden and they've created a garden that's easy to maintain and the envy of all our neighbours!" **Martin Fogerty, Portmarnock, Co. Dublin**

"We have used Paul and his team for several garden projects over the last few years, including a complete renovation of our back garden when we moved into our present home as well as a front garden remodelling and a recent patio refurbishment. Paul has a very good eye for detail and gives excellent advice on what will work in any given space. His team are meticulously tidy in their work and always leave everything clean and tidy on completion." **Paul Carroll, Clane, Co. Kildare**

FROM GREAT PLANS...

GROW WONDERFUL GARDENS

## CREATE YOUR EDEN WITH THE DUNNE LANDSCAPE TEAM

Dunne Landscaping company provides garden design, build and finishing services to home owners looking to improve their outdoor space, corporate offices & development sites and local authorities developing and maintaining civic amenities such as parks, playgrounds and street features.

Established by Paul Dunne, a respected landscape gardener, who recently won a silver medal at Bloom 2017 for his Marie Keating, Get Men Talking garden. Dunne Landscaping are creative in design, practical in outlay, matching lifestyle and garden practicalities while being competitive in price and exceptional in service delivery.

Our Domestic services range from paving and decking to the creation of unique garden layout, features and stone work. We design our gardens in a way which ensures that they mature gracefully and give their owners many years of pleasure and enjoyment."
